

### Features

- Power: AC100V~AC240V@50/60Hz;
- Power Rate: ≤15.4W;
- Transmission Media: Cat5/5e/6 Cable standard network cable;
- Standard: IEEE802.3af;
- Protection: Wide voltage AC Input. Strong lighting protection, ESD, anti-inteference
- Structure: Support tablet and wallet installation. 2 sets of PoE injector can connect with the bayonet.

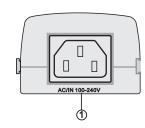

### Notice

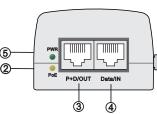

To make sure the transmission quality, please use standard Cat5/5e/6 cable.

## **■** Board Diagram

Bayonet

Board

No.	Board	Description
1101		·
1	AC/IN 100-240V	AC100V~240V power port
2	PoE	PoE LED on means PoE signal output
3	P+D/OUT	PoE signal output port
4	Date/IN	Ethernet input port
5	PWR	PWR LED on means power supply normal

## ■ Installation Step

Please check the following items before installation. If any missing, please contact the dealer.

Single Port PoE Injector	1pc
AC Power Line	1pc
User Manual	1pc

## Please follow the following step

- Please turn off the signal source and the device's power, installation with power on may damage the device;
- 2) Use a network cable to connect PoE IP camera with PoE OUT port of Single Port PoE Injector;
- 3) Use another network cable to connect Data In of Single Port PoE Injector with Ethernet switch and other devices which dose not support PoE;
- 4) Connect AC power line;
- 5) Check if the installation is correct and device is good, make sure all the connection is reliable and power up the system;
- 6) Make sure all the network devices have power supply and they are working normal.

## Single Port PoE Injector -

# **■** Specification

Item		Description
Power	Power Supply	City Electricity
	Power Voltage	AC100V~AC240V
	Output Consumption	≤15.4W
	Communication Port	1 × RJ45
Ethernet Port	Transmission Rate	10/100Mbps
Ellellelroit	Transmission Medium	Cat5/5e/6 standard network cable
	Transmission Distance	100m (Max)
LED Status	Power	1(Green)
Indicator	PoE	1 (Yellow)
Protection	Lightning Protection	Level 3 Standard: IEC6100-4-5
	ESD	Level 3 Standard: IEC6100-4-2
	Working Temperature	0℃~55℃
Environmental	Storage Temperature	-40°C~85°C
	Humidity	0~95%
	Size (L×W×H)	145.5mm × 64.5mm × 40.5mm
Mechanical	Material	ABS Plastic
Mechanical	Color	Black
	Weight	163g
Stability	MTBF	>30000h

Product are subject to change without prior notice

# ■ Trouble Shooting

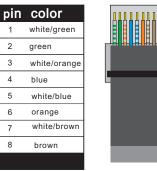

### Please find the following solution when the device doesn't work

- Please confirm if the installation is correct;
- Please confirm if the RJ45 cable order in accordance with the EIA/TIA568A or 568B industry standards;
- The maximum output consumption of the PoE port can't exceed 15.4W, please do not connect the network device which consumption is more than 15.4W;
- Please replace a normal device with a failure one to check if the device is broken; If the problem still exist, please contact the factory.

## RJ 45 Making Method

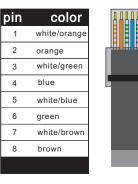

Instruments to be used: wire crimper, network tester. Wire sequence of RJ45 plug should conform with EIA/TIA568A or 568B.

- 1) Shuck off about 2cm long the insulating layer, and bar the 4 pairs UTP cable;
- 2) Depart the 4 pairs UTP cable and straighten them;
- 3) Line up the 8 pieces of cables per EIA/TIA 568A or 568B;
- 4) Cut out 1.5 cm cable wrap and leave the bare wire;
- 5) Plug 8 cables into RJ45 plug, make sure each cable is in each pin;
- 6) Then use wire crimper to crimp it;
- 7) Follow the 5 steps above to make the another end, following the same sequence of the first plug;
- 8) Using network tester to test the cable whether is working.

EIA/TIA 568A

EIA/TIA 568B

#### Notice

- When choose RJ-45 make sure if one end is EIA/TIA568A, the other end should also be EIA/TIA568A.
- When choose RJ-45 make sure if one end is EIA/TIA568B, the other end should also be EIA/TIA568B.
