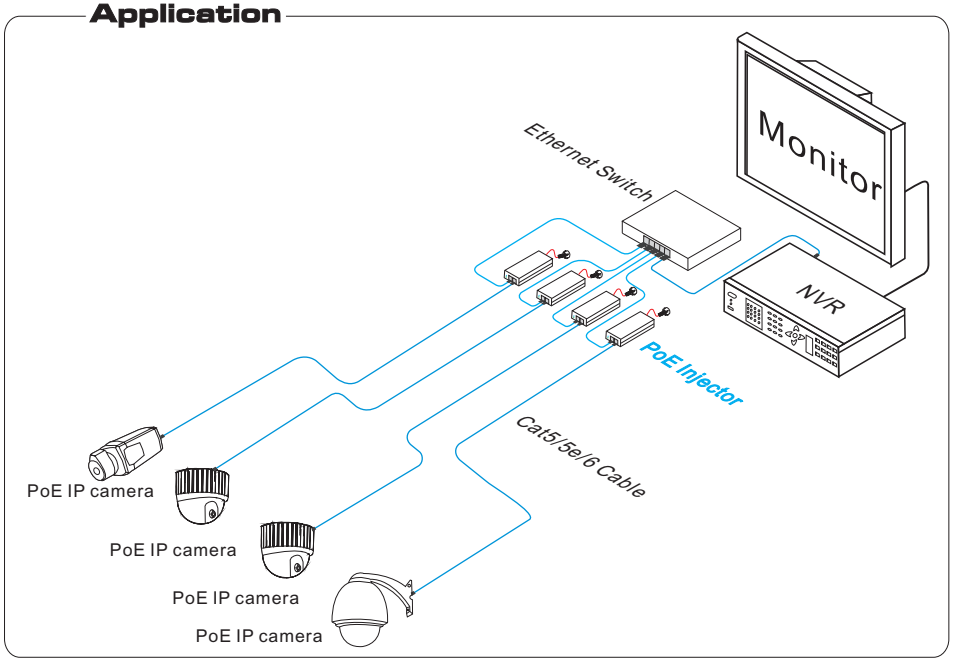
PoE Injector(Gigabit/60W)
User Manual

VerB 1.0

This is a single-port PoE injector with one Ethernet port, one PoE output port, and one AC input power port. It supports end-span PoE and the output power consumption is up to 60W; It features:10/100M/1000Mbps network,100m transmission distance,6KV lightning protection, industrial-level chip, and patent alert. it's an excellent choice for power supply and network transmission on PTZ cameras, all-in-one PC, digital display system.

Application



Features

- PoE++ power supply standard; Output power consumption up to 60W;
- Ultra PoE、IEEE 802.3af/at、IEEE 802.3 10Base-T/100Base-TX/IEEE802.3ab 1000Base-T;
- Higher conversion efficiency(90%); Lower heat radiation;
- Working Temperature: -10℃～55℃;
- 6KV lightning protection; 8KV ESD;
- No fan, no noise, dustproof;
- LEDs indicate operation status.

Notice

The transmission distance depends on the signal source and cable quality,standard Cat5e/6 cable is strongly suggested for reaching the maximum transmission distance!

Installation

Please check the following accessory, if you find the item lost, please contact our local dealer.

- PoE Injector 1pc
- AC Power Cable 1pc
- Power Buckle 1pc
- User Manual 1pc

Please follow installation steps as below

(1) Turn off the system's power before the installation;

(2) The PoE Output port of this injector is connected with PoE IP Camera;

(3) The Data Input of this injector is connected with switch of no PoE fuction;

(4) Please connect PoE Injector with AC cable;

(5) Please examine and power the system.

Specification

Item		Description
Interface	Input Voltage	AC100V~AC240V
	Data Input	1×RJ45
	PoE output	1×RJ45
PoE	PoE Power Supply Type	End-span/Mid-span
	PoE Power Output	DC 54V/60 watts
	Output Ripple	< 5%
	Power Pin Assignment	Pair1:1/2(+),3/6(-) Pair2:4/5(-),7/8(+)
Ethernet Port	Communication Port	1×RJ45 Input
	TransmissionRate	10/100/1000Mbps
	Transmission Medium	Cat5/5e/6 Cable
	Distance	100m (Max.)
Status	Power LED	1 (Red)
	PoE LED	1 (Orange)
Protection	Surge Protection	PoE Power : 1KV(Differential Mode),2KV(Common Mode)1.2/50us , 8/20us Ethernet : 2KV(Differential Mode),6KV(Common Mode)10/7000us
	ESD	1a Contact Discharge Level 3 1b Air Discharge Level 3 Per: IEC61000-4-2
Environment	Working Temperature	-10℃~55℃
	Storage Temperature	-40℃~85℃
	Humidity(Non-condensing)	0~90%
Mechanics	Dimension(LxWxH)	160mm×64mm×60mm
	Material	ABS Plastics
	Color	Black
	Weight	200g

Trouble Shooting

If any trouble in installation, please follow these steps

- Please make sure you have followed the instruction to install the device;
- Please confirm if the RJ45 cable order is in accordance with the EIA/TIA 568A or 568B industry standard;
- The power supply of PoE port is no more than 30W; please do not connect the network device whose power consumption is over 30W;
- Please replace a failure device with a proper one to check if the device is broken;
- If the problem still exist, please contact the local dealer.

RJ45 Making Method

Instruments to be used: wire crimper, network tester. Wire sequence of RJ45 plug should conform with EIA/TIA568A or 568B.

1) Please remove 2cm long the insulating layer, and bar the 4 pairs UTP cable;
2) Separate the 4 pairs UTP cable and straighten them;
3) Line up the 8 pieces of cables per EIA/TIA 568A or 568B;
4) Cut off the cables to leave 1.5cm bare wire;
5) Plug 8 cables into RJ45 plug, make sure each cable is in each pin;
6) Use the wire crimper to crimp it;
7) Repeat above 5 steps to make the another end;
8) Using network tester to test the cable whether is working.

Notice

- When choose RJ-45 make sure if one end is EIA/TIA568A,the other end should also be EIA/TIA568A.
- When choose RJ-45 make sure if one end is EIA/TIA568B,the other end should also be EIA/TIA568B.
